

## Draw Your Own Food Pyramid

### Create a food web

Draw an organism at each level of the food pyramid (use the boxes provided below). Feel free to use more paper if you need more space!

Bonus activity: Go outdoors and look for organisms. Try to identify what trophic level each organisms exist at! Can you find any decomposers?

Producer (plant)	Primary Consumer (herbivore)
Secondary Consumer (carnivore)	Tertiary Consumer (top predator, carnivore)

Share your creations using the #WildlifeWednesdayWeek3 and tag Government Canyon!

Questions:

Are insects producers or consumers?

Are trees producers or consumers?

Give an example of an herbivore, carnivore, and omnivore.

Advanced questions

What would happen to food webs if plants were taken out?

How do insects affect food webs?
